

C22 tube preamplifier

- Featuring a cool, 1960s retro design, the C22 has been updated to modern standards to deliver a performance on par with any other McIntosh preamp.
- Electromagnetic input switching provides reliable, noiseless and distortion free operation. Low distortion levels of all types are less than 0.08%. Music is presented with total transparency and accuracy.
- Moving Coil and Moving Magnet phono input sections with selectable resistance and capacitive loading so every phono cartridge can be perfectly matched for best sound.
- Bass and Treble tone controls with bypass feature allow listening to your favorite songs at your preferred tonal balance.
- Power Control outputs to turn on/off a complete McIntosh system using the front panel or remote control.

Retro Styling, Modern Performance

27 lbs (12.25kg) net,
43.4 lbs (19.68kg) in shipping carton

For the Consumer's Protection:

In order to ensure the highest level of customer satisfaction, "new" McIntosh products may only be purchased over-the-counter or delivered and installed by an Authorized McIntosh Dealer. McIntosh products that are purchased over the Internet, by phone or mail order are presumed to be "used" and do not qualify for any McIntosh Warranty. McIntosh does not warrant, in any way, products that are purchased from anyone who is not an Authorized Dealer or products that have had their serial number altered or defaced.

Companion Products

The McIntosh MC75 Tube Amplifier, D150 Digital Preamplifier, MCT450 SACD/CD Transport, MT5 Turntable, MHP1000 Headphones and XR100 Loudspeakers are logical companions for the C22 Tube Preamplifier. Your authorized dealer can provide additional information.
