

MB100 media bridge

- The MB100 allows you to enjoy all your favorite web based and hard drive stored music in legendary McIntosh sound at up to 24 bit/192kHz resolution.
- Connect external hard drives or flash drives via the USB and eSata ports. On-board embedded streaming services include Pandora®, SiriusXM®, Spotify®, Rhapsody and TuneIn (subscriptions may be required).
- Automatically synchronizes the content stored on your networked computers so it is readily accessible and playable.
- Access to Amazon Cloud Drive or Apple iCloud for secure content backup and synchronization across multiple homes or locations.
- The operating system and music player are housed on a state-of-the-art solid state hard drive for fast response times, quiet operation and durability. A 1TB internal hard drive is included for content storage.
- Easy, intuitive control via iOS or Android app, web browser, or a remote control with TV interface.

iPad shown with McIntosh Media Bridge control app. App available on the iTunes App Store. iPad held in McIntosh ST-1 Accessory Stand. iPad and ST-1 not included. Android app also available.

For the Consumer's Protection:

In order to ensure the highest level of customer satisfaction, "new" McIntosh products may only be purchased over-the-counter or delivered and installed by an Authorized McIntosh Dealer. McIntosh products that are purchased over the Internet, by phone or mail order are presumed to be "used" and do not qualify for any McIntosh Warranty. McIntosh does not warrant, in any way, products that are purchased from anyone who is not an Authorized Dealer or products that have had their serial number altered or defaced.

Companion Products

The MB100 may be added to any system where streaming music from the web or local hard drives is desired, or where local storage of digital music is needed. Your Authorized Dealer can provide additional information on other McIntosh products.
