McIntosh

RK200 Rough-In Kit for the CS200

The RK200 Rough-In Bracket is designed to facilitate the installation of the McIntosh CS200 Ceiling Loudspeaker System in new construction projects. The bracket provides a solid mounting frame for extra support of the Loudspeaker and assures the cutout is the proper size.
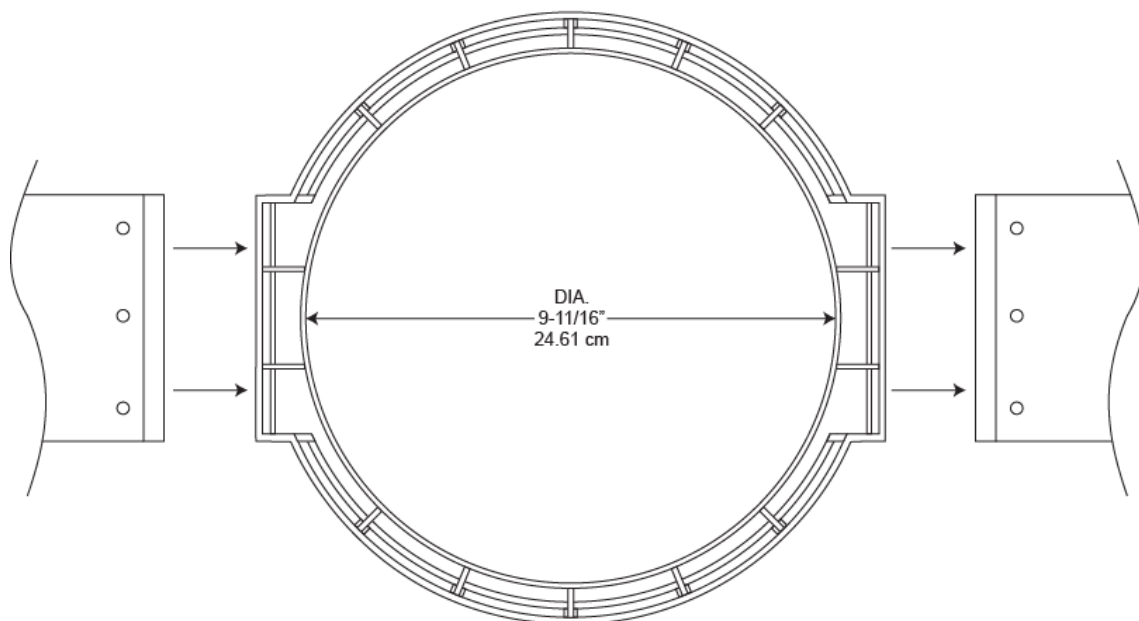

When installing the RK200 Rough-In Kit be sure to obey all building codes.

- Attach the Wings to the center bracket by snapping the tabs into the corresponding slots on the bracket.
- Screw, nail or staple the assembled bracket and wings to the studs.
- Drywall when ready.
