

XCS200 center channel speaker

- The XCS200 delivers extraordinary sound quality, enormous acoustic output and 600 Watt power handling.
- Ideal for high quality home theater installations, the XCS200 is designed as a matching center channel to the floor standing XR200 speaker.
- Not limited as just a center channel, the XCS200 has proven popular in custom home theater installations as a left, center, right and surround speaker when combined with one or more powerful subwoofers.
- Produces a true-to-life image that is the perfect complement to fine speakers such as the XR200.
- Enclosure design resists standing waves for smooth low frequency response.
- Mounting flexibility allows many placement options or for hidden installations.

Versatile Home Theater Speaker

61 lbs (27.5Kg) net,
73 lbs (33.2kg) in shipping carton

**For the Consumer's Protection:**

In order to ensure the highest level of customer satisfaction, "new" McIntosh products may only be purchased over-the-counter or delivered and installed by an Authorized McIntosh Dealer. McIntosh products that are purchased over the Internet, by phone or mail order are presumed to be "used" and do not qualify for any McIntosh Warranty. McIntosh does not warrant, in any way, products that are purchased from anyone who is not an Authorized Dealer or products that have had their serial number altered or defaced.

**Companion Products**

The McIntosh MC303, MC205 or MC207 Amplifiers, MX121 A/V Control Center, MVP891 Audio Video Player, MPC1500 Power Controller and XR200 Loudspeakers are logical companions for the XCS200 Center Channel Loudspeaker. Your Authorized Dealer can provide additional information on other McIntosh products.
