

## MX122 A/V Processor Firmware Update Instructions to Install Dolby Vision and HLG HDR

## McIntosh MX122 Firmware Update

A free firmware update is available to add Dolby Vision and HLG HDR to the MX122 A/V Processor. In addition to adding support for these HDR formats, this firmware update also fixes a Spotify 'Devices Available' connection issue. Firmware version 6002-6121-4253-05 or later must be installed to access these new features.

To check for and perform the firmware update on the MX122 A/V Processor, please follow the steps below. To perform the update, the MX122 must be connected to a router that has internet access. This can either be a wired ethernet connection or a wireless connection using the MX122 Wi-Fi capabilities.

### Step 1: Go to the Setup Menu and select General.

### Step 2: Select Firmware.

### Step 3: Select Update

### Step 4: Select Check for Update

### Step 5: Once the update is found, select Update.

### Step 6: Select Update Start.
