

LEGENDARY PERFORMANCE®

Maintenance Technician I (Hourly, Non- Exempt Binghamton NY)

Since 1949 we have been powering some of the most important moments in music history and pop culture – from Inaugural Speeches of American Presidents to Woodstock to the famous Grateful Dead “Wall of Sound,” McIntosh has not only witnessed history, we have shaped it. Every day our teams go to work filled with passion and dedication to build and design the legendary home audio systems the world has come to know.

We are looking for the next hardworking and dedicated candidate who shares a passion for music and the McIntosh heritage! Do you want to be the next person who can share in the team atmosphere that drives The Great American Powerhouse and brings our listeners the ability to create their own luxury audio experience – and truly live their music? Then Read on!

Working as an **Maintenance Technician I** at McIntosh Labs is EPIC! Together *we exist to amplify life’s memorable moments* – together as one team! You will be part of the dynamic team that contributes and builds the fueling of the Great American Powerhouse! You will be part of the team that keeps the machines in great shape, you will partner with team leads to help troubleshoot any mechanical or electrical problems, and you will work side by side with the production team that brings the McIntosh audio equipment to life!

What You’ll Do:

- Perform simple machinist duties and responsibilities.
- Perform mechanical and troubleshooting skills including, but not limited to, mechanical, electrical.
- Read and interpret equipment manuals and work orders to perform required maintenance and service.
- Diagnose problems, replace, or repair parts, test and make adjustments.
- Perform regular preventive maintenance on machines, equipment, and plant facilities.
- Detect faulty operations, defective material, and report those and any unusual situations to proper supervision.
- Comply with safety regulations and maintain clean and orderly work areas.
- Attendance
- Being prompt and on time for scheduled shifts

What You’ll Need:

- Technically oriented with high attention to detail.
- Able to reorder priorities in accordance with changing work conditions and customer requirements.
- Able to multi-task and work well without supervision.
- Use good judgment and common sense to make numerous daily decisions.
- Excellent verbal and written communication skills.

LEGENDARY PERFORMANCE®

- Coordinates and collaborates with all other departments of the Company.
- Must be self-motivated and possess strong organizational skills.
- Anticipates internal and external customer needs, gives high priority to customer satisfaction and service.
- Bachelor's degree in engineering preferred.
- Minimum of 5 years of experience working as a manufacturing/production engineer.
- Salary range of: \$70781 to \$84962
